Find your tasks on in the jungle of cards
Search in titles or in descriptions

Follow your team's progression by color, states and release filter. Keep focused by hiding away all unnecessary task

Follow team's activity using "by others" filters

Schedule your tasks with estimation filters

Check your tasks in issue tracker

The screenshot shows the 'Search & filter' interface. At the top, there is a search input field with the placeholder text 'Start typing to start search in titles...'. Below the search field, there is a checkbox for 'Search in description' and a 'hide filters' link. The interface includes several filter sections: 'Created or updated...' with a dropdown arrow, 'Filter by releases' with a dropdown arrow, 'Filter by colors' with a dropdown arrow, and 'Filter by states' with a dropdown arrow. There are two columns of checkboxes for filtering by activity: 'Is among top level cards', 'Created by others', 'Last updated by others', 'Commented by others', 'Has details', 'Has estimation', 'Has attachment', and 'Linked to issue tracker' in the first column; and 'Is among story cards', 'Created by me', 'Last updated by me', 'Commented by me', 'Has no details', 'Has no estimation', 'Has no attachment', and 'Not linked to issue tracker' in the second column. At the bottom, it says '0 cards found. Press ENTER or click on 'Find next' to apply filter.' and has two buttons: 'Find First' and 'Reset'.

Save time and find task in a big project
After entering three characters, dynamic search field shows results

Hide filters to get more space for search results

Keep up to date by filtering out the newest cards or updates

Focus on story cards
